

# Why look at gender and climate change together in supply chains?

## FURTHER RESOURCES

### **Business Fights Poverty / Change by Degrees** [Climate Justice Framework](#)

This introduction to climate justice provides companies with a framework and diagnostic to assess their contribution to 'putting people at the centre of their climate ambitions'. It urges companies to consider their impact against the key principles of climate justice, including on people-centred approaches, a just transition, sharing benefits and burdens fairly, participation, diversity and inclusion, education and skills and partnerships.

### **2XGlobal – Gender and Climate Investment**

2X Global is the new name for two long-standing leaders in the field: GenderSmart and 2X Collaborative, whose respective field-building and membership clout have helped to catalyse billions of gender-smart investing dollars since 2018. The website includes a community of practise on gender and climate investment with practical tools and business cases.

### **IFC – [Climate2Equal Initiative](#)**

A new IFC platform aims to encourage companies in Pakistan and Turkey to implement gender-responsive climate action plans.

### **IFC – [Exploring Opportunities for Women Entrepreneurs Driving Climate Solutions](#)**

This report sets out the business case for investing in female-led and owned enterprises that are contributing to the transition to a low-carbon economy, and suggests how investors and others can support this growing opportunity.

### **Business Fights Poverty / Standard Chartered – [Investing in Women Climate Tech Leaders](#)**

A discussion with climate tech entrepreneurs Leena Al Olaimy, Founder & CEO, Symbaiosys and Lara Hussein, Co-Founder of The Waste Lab, specialising in analytics to better measure payment for ecosystem services and food waste, respectively.

### **Business Fights Poverty / Practical Action – Climate Change and Poverty Increases Gender-Based Violence**

Mariette Utamuvuna, Berthille Kampire and George Williams from Practical Action explore the complex relationships between climate change, poverty and gender-based violence. Sharing examples from refugee contexts, they emphasise the power of community responses.

### **Business Fights Poverty / Standard Chartered Scaling Green Tech Solutions for Smallholder Farmers, with Audrey and Khadija**

Through the FutureMakers entrepreneurship programme, Standard Chartered has supported visionary regenerative agriculture leader Audrey S-Darko. Audrey established climate tech start-up Sabon Sake, which focuses on restoring soil health and biodiversity through sustainable waste recovery and utilising eco-friendly biochar to increase carbon sequestration.

### **Hand in Hand – Women Smallholders Will Drive Africa’s Transition to Regenerative Agriculture**

This article defines regenerative agriculture and explores why it is so important to soil health and food security. It also outlines a partnership with the IKEA Foundation to pilot a curriculum to train women farmers on regenerative approaches.

### **Cotton Connect – Women Cotton Farmers and Climate Solutions**

An article outlining how climate adaptation and mitigation are more effective when women are involved – and how, given the right training, skills and tools, women tend to make more sustainable decisions. When elevated to a decision-making position, women encourage better climate governance and more climate innovation.
